

## Village Cohousing Works seeks Board Members and Committee Chairs

Village Cohousing Works harnesses the power of community to positively change lives with permanent housing. We bring affordable housing to the underserved north county, in the form of community-centered construction that prioritizes those who are vulnerable to homelessness. Our model offers residents the opportunity to gain equity in the context of stable and meaningful relationships.

**Village Cohousing Works is recruiting new board members and committee chairs.** We especially seek members who have experienced housing instability, and who have a passion for equitable housing solutions. **We welcome diverse perspectives and a range of life experiences.**

The work of our board is well supported by a robust team of volunteer "partners," so the workload for board members is not burdensome. We meet twice monthly as a large group, once in person and once by Zoom. Board term is one or two years. We are quite flexible and willing to accommodate work schedules - board decisions are often made over email.

We're especially looking for motivated individuals willing to help us in our second year with marketing and fundraising for our next two homes. This team of volunteers needs a chairperson to help plan fundraising campaigns, and represent the team at board meetings.

**Experience is not a requirement - committee chairs are team representatives. These are learning roles.**
